Education

Texas A&M University | *Bachelor of Science, Computer Science* (GPA: 3.6/4.0) College Station, TX May 2028

Skills

- **Languages:** Python, Java, JavaScript, TypeScript, SQL, HTML/CSS, C/C++, C#
- **Frameworks/Libraries:** React, Node, NextJs, TailwindCSS
- **Developer Tools:** AWS, Git, Github, MongoDB, Visual Studio, IntelliJ, Agile, OAuth 2.0, Rest APIs
- **AI:** OpenAI, Cursor, GPT APIs, Raikoo
- **Engineering Disciplines:** Mechanical Engineering, Electrical Engineering, Chemical Engineering, Engineering Management
- **Design & PLM Tools:** CAD, 3D Modeling, 2D Engineering Assembly Drawings, BOM Management, Enovia, Solidworks PDM, Teamcenter
- **Engineering Fundamentals:** Systems Thinking, Thermodynamics, Fluid Dynamics, Heat Transfer, Mechanics, Electronics

Experience

AMD (Advanced Micro Devices, Inc.)

Jan 2026 - Present

Software Engineer Intern

Austin, TX

- Developed Python automation to validate CPU server power features across remote Linux systems, enabling repeatable regression testing through systems-level thinking.
- Orchestrated multi-node performance testing with Ansible and built a unified latency/bandwidth/power scoring pipeline for automated qualification.
- Applied ML-based tuning (Bayesian optimization) to optimize hardware power configurations, debugged system-level issues across containers and firmware, and produced comprehensive technical documentation and reports.

Arkane Digital

Jun 2025 - Aug 2025

Software Engineer Intern

Remote

- Developed and deployed 10+ AI-powered Raikoo workflows using Python, TensorFlow, and scikit-learn, reducing manual front-end development time by 60% and accelerating feature roll-outs across teams.
- Engineered multi-component generation logic with advanced data preprocessing and integrated deep learning/NLP models into design-to-code systems, supporting 20+ UI configurations, boosting scalability by 35%, and increasing developer throughput by 40%.

Edikt Studios

Aug 2022 - May 2024

Software Engineer Intern

Frisco, TX

- Designed and developed 4 game prototypes in Unity and Unreal Engine with C++ and C#, implementing gameplay logic, interactive UI elements, and level mechanics that improved overall player experience by 25%, utilizing 3D modeling techniques.
- Integrated 20+ 3D and 2D assets and optimized builds using physics-based scripting, Agile development, and version control (Git, SVN) to ensure efficient iteration and stable, high-performance releases, applying mechanics principles to enhance realism.

Arkane Digital

Jun 2023 - Mar 2024

Software Engineer Intern

Remote

- Built and deployed 10+ responsive web components using HTML, CSS, and JavaScript while developing and optimizing front-end features in React and Next.js, improving user interaction time by 25%, page load speed by 30%, and SEO ranking by 15% via engineering management practices.
- Enhanced and tested dynamic pages across Angular, Node.js, and Express frameworks, achieving 99.9% uptime and resolving 95% of bugs pre-deployment through Git/GitHub-based Agile collaboration.

Projects

AI Social Media Workflow

- Developed an AI-driven workflow on Raikoo AI that automated cross-platform content generation (LinkedIn, Instagram, X, blogs, articles), reducing manual creation time by 70% and boosting content quality by 30% during internal testing.
- Integrated Gemini 2.5 Flash, GPT-4, and vision models to generate API-compliant captions, images, and JSON payloads, improving automation accuracy and deployment reliability by 40% and documented data flow and system architecture for stakeholder review

Webpage Enhancement | *Arkane Digital*

- Architected and developed a new landing page with 5+ interactive React/Next.js components and 15+ responsive layouts, improving user engagement by 35%, session duration by 25%, and cross-browser compatibility to 98%.
- Optimized performance using React hooks and state management to reduce load time by 40%, authored technical documentation for component architecture, and collaborated with 3+ developers in an Agile Git workflow to deliver 100% of milestones on schedule
